**Net Promoter Score®** **Q: How likely would you be to recommend the care, treatment and services of this centre to family and friends?**

+ 84.00

😊

<b>Promoters</b>	<b>92.00%</b>	<i>Promoters (scored the question 9-10) are loyal enthusiasts who will keep using your services and refer others, fuelling growth.</i>
<b>Passives</b>	<b>0.00%</b>	<i>Passives (scored the question 7-8) are satisfied but unenthusiastic patients who are vulnerable to competitive offerings.</i>
<b>Detractors</b>	<b>8.00%</b>	<i>Detractors (scored the question 0-6) are unhappy patients who can damage your brand and impede growth through negative word-of-mouth.</i>

The Net Promoter Score® (NPS) can range from a low of -100 (if every customer is a Detractor) to a high of 100 (if every customer is a Promoter). The NPS® is a measure of your customer's overall loyalty to your organisation, which determines your potential for repeat business and positive word-of-mouth. The higher the net promoter score, the more likely a customer will recommend the service to friends and colleagues.
